

ANOTHER Junk Dealer Was Fined.

Angie's Purse Disappeared
While She Drank.

Ice Cream Disappeared
From Surprise Party.

A Large Variety of Happenings
In Police Court.

Max Becher was fined \$5 and costs by the Mayor, Wednesday morning for buying from minors. Becher is one of the junk dealers who bought brass from the boys who had been stealing such material right and left for several months. When Becher was first arraigned he pleaded not guilty, but he changed his mind, Wednesday morning.

Paul Bishop and Ed Sisler were charged with petit larceny. It appears that a surprise party was given at the home of Miss Elizabeth McKnight, and among the good things that were provided was a gallon of ice cream. The cream was placed on the porch until wanted and it had disappeared when the time came to serve it. Sisler and Bishop are suspected of having had to do with the disappearance. Sisler pleaded guilty and Bishop not guilty. Sentence in the one case is suspended until the other is tried Thursday.

Angie Fielder went into a saloon on North Howard st., Tuesday, sat down at a table and ordered some beer. While she was there her purse containing \$5 disappeared, and she accused Wm. Updegraff, who was in the saloon at the time, of taking it. He was arrested and pleaded guilty Wednesday morning, but denied that there had been any money in the purse. Mayor Doyle fined him \$25 and costs and sentenced him to 30 days in the workhouse.

William Leader and Max Wein, charged with disorderly conduct, pleaded not guilty and their cases were continued. They are accused of fighting.

John Johnson was fined \$1 and costs for intoxication and E. R. Brown was assessed \$2 and costs for the same offense.

W. B. Baughman, arrested on complaint of Nathan M. Berk, who charges that Baughman disposed of some property that had been mortgaged with him, pleaded not guilty and his case will be heard Thursday.

STORM

Did Considerable Damage at
Sherbondy.

(Special Correspondence.)
Sherbondy, Aug. 6.—A severe wind-storm, accompanied by heavy falls of rain and hail, passed over this section Sunday afternoon. Fruit trees were blown down and crops damaged. John Baumgartel was a caller here Sunday.

Mrs. Betz is visiting at Sherman with her parents, Mr. and Mrs. Mohler.

The agency for the sale of lots on the old Sherbondy farm has been placed in the hands of Brouse & Hollinger, of Akron.

PADDED PAYROLL

Has Caused a Stir In Geneva's
City Affairs.

Geneva, O., Aug. 6.—Mayor Russell has demanded the resignation of Councilman Whitsey and Engineer Hewitt. A few weeks ago the engineer certified a payroll to the Council containing the name of George Williams. Later it developed that no such person had been employed in the water works.

Dr. Lyon's TOOTH POWDER

Used by people of refinement
for over a quarter of a century.

Improvement and that orders drawn in that name were cashed by Councilman Whitsey. A secret investigation made at once resulted in the Mayor's action.

Several of the Councilmen want an investigation made, but it has never been brought about, and as a result Councilman Wetmore has handed in his resignation, claiming that a stigma had been placed on the Council and he did not care longer to have the public point him out as a Councilman.

FALLING OFF IN DIVIDENDS

Standard Oil Still Does Pretty
Well, However.

New York, Aug. 6.—Declaration of a dividend of only \$5 a share for the third quarter of the year by the Standard Oil directors occasioned some surprise in Wall street yesterday, though in well informed banking and oil trade circles a reduction was looked for earlier in the year. The latest declaration of \$5 this year compares with \$8 for the corresponding quarter a year ago.

The reasons for the reductions may easily be found. The company has spent a great deal of money for new ocean tanks ships constructed by the Cramps, and to be used in the Texas oil trade for one thing, and again it has been compelled to meet harassing competition. Russian oil has been offered in this market at reduced prices, and while not a great deal of the foreign product has been marketed here, the Standard Oil Co. has been compelled to cut prices in order to hold its trade.

WHERE IS CHARLIE BUTTON?

Citizens May Be Going By Direct
Route to China, Next.

A prominent business man, who was out driving Tuesday morning, had an exciting time at the corner of Howe and Campbell sts. According to his story, his horse went into the mud up to its body, while the wheels below the hubs disappeared entirely. "I thought I had run into quicksand and right on a much traveled street. The horse made a lunge and pulled out, or we might be going down yet. As it was, a torn harness, a muddy horse and buggy constituted the damage."

DISMISSED.

Julius Whitelaw Escaped From
Charges at Sharon.

The action begun at Sharon, Pa., against Julius J. Whitelaw, of Akron, upon charge of selling liquor without a license, has been dismissed, and Mr. Whitelaw says that the action of the court in dismissing the action gives him permission to continue the business same as before. He claims that there is no violation of the license laws of Pennsylvania, as the sales of liquor are made in Akron, and the goods shipped to Sharon later. This point of law has been the source of a great deal of worry for Sharon courts, as it has been before them several times.

DRAGON FLY EATS MOSQUITOES

Really Too Bad They Do Not
Come This Way.

Chicago, Aug. 6.—A Moses in the form of a mosquito hawk has appeared to rid the residents of the Lake Shore drive of their plague of insects. Another name of the mosquito hawk is the dragon fly, but the creatures are doing a saint's work in the annihilation of the pest.

Saturday night, just before dusk, the mosquito hawk appeared in a swarm. The air between the outer row of trees and the sea wall was alive with them. At the same hour yesterday they came again, and wrought havoc in the ranks of the mosquitoes. Their work of one evening was appreciable in its effects. Last night it was possible to sit on the benches and enjoy a breath of air without the necessity of keeping both hands at work to fight off the attacks of the buzzing enemy.

Recently the United States government, through its biological department, issued a pamphlet telling the people of mosquito-plagued districts

how to cultivate the dragon fly, saying that when it was plentiful, the mosquito had no chance for its life. The Lake Shore drive is at present showing proof of the sagacity of Uncle Sam's entomologists.

PEACEFULLY,

At Least, Alexander Ries Is Passing
to the Beyond.

Trenton, N. J., Aug. 6.—Alexander Ries, of No. 635 Hewitt st., is believed to be sleeping to his death. He has been slumbering for the past two weeks and physicians have been unable to awake him. Ries was a painter in the Camp ship yards at Philadelphia. He worked very hard at his trade, bringing on nervous prostration. All the means known to medical science have been used to arouse him, but to no avail. He has had no solid nourishment in 14 days.

RECOVERED

Property Enfield Was Accused of
Hiding.

The horse, wagon and harness alleged to have been secreted by Isaac Enfield, to avoid having them sold for the collection of a chattel mortgage given to L. C. Miller, of Akron, were recovered Monday at Dennison, O., about 65 miles from Akron. Enfield was placed in jail several days ago to await trial upon charge of having secreted mortgaged property, but he finally told the sheriff where the property could be found. On Monday he went with Sheriff Kelly and Deputy Sheriff Hollinger to Dennison, and the property was found promptly. Enfield has been released.

MRS. McLEAN

Set a Good Example to Other
Owners of 'Moblies.

Newport, R. I., August 6.—While Mrs. John R. McLean, of Washington, who is occupying the Bennett villa, was driving in her automobile along Spring st. last night two boys ran down an intersecting street just as the automobile approached the corner. One boy crossed the street ahead of the automobile, but the other, Eddie Ball, son of Mrs. Martin H. Ball, was struck, and falling, was run over by the automobile, one wheel passing over his body. The boy was taken into a physician's office, Mrs. McLean going in the automobile for the boy's mother and taking her to her injured son. It

ANNIE

Is Pretty Smooth In
Her Line.

A Wagon-Load of Plunder Found
In Her Rooms.

Boston, Mass., Aug. 6.—Miss Annie Gilbert, 27 years of age, who is said by the police to pose as a domestic, poor, hailing from Nova Scotia, but who is really one of the most successful and generally feared thieves in the country, is locked up in the woman's prison, awaiting an investigation of her case. The authorities all over the country have heard of Annie Gilbert and the police of many cities and towns have warrants calling for her arrest. Thirty-five cases are laid at her door. After Annie was arrested a wagon load of valuables was recovered from her lodgings. The plunder included diamonds and other jewels, silverware, household articles, bric-a-brac, wearing apparel and bicycles, worth in the aggregate several thousand dollars. The woman's game was to go to employment offices and hire out to wealthy families as a domestic. After she had been at a house a while, the inmates would awaken some morning to find that burglars had looted it of all the treasures.
